Profiles

Sevi Dervishi

sevi2000

Summary

I am a Java software engineer eager to learn and enhance my current knowledge and skills.

I bring a strong sense of initiative to my work, ensuring I can handle responsibilities independently. However, I equally prioritize teamwork, recognizing that the best results come from leveraging the strengths and ideas of a collaborative team.

Experience

Egencia, American Express GBT   April 2024 - August 2024
Software Engineer Intern   Issy-les-Moulineaux
https://www.egencia.fr

Porting legacy code to a dedicated flight booking service API client

- Using Adapter design pattern
- Integration tests with Cucumber (Given-When-Then)
- Mocked unit tests using Mockito and JUnit 5
- Spring Boot
- Elasticsearch & Kibana
- Agile team collaboration using Jira

Education

Université Paris Cité   September 2022 - September 2024
Computer Science   Master's degree

- Software engineering using Java
- Agile methodology
- Clean code & SOLID principles
- Data structures and algorithms
- PostgreSQL

Université Paris Cité   September 2019 - May 2022
Computer Science   Bachelor's degree

- Java Design Patterns
- Java Socket API
- Java Swing

Notable Student Project

MoriaMap   February - May 2023
Shortest route finder in a given public transportation network using Java
https://github.com/SkyNalix/MoriaMap

- Design Patterns
- GitHub workflows (CI/CD)
- UML diagrams
- Use Cases
